Résumé

Johanna Fink-Gremmels obtained her degree in veterinary medicine from the Veterinary School in Hannover (Germany) and as European specialist in Veterinary Pharmacology, which includes the responsible use of antibiotics.

She was appointed as a professor by the Veterinary Faculty of Utrecht University in 1991 and is associated now as senior scientist and principal investigator in the Institute for Risk Assessment Sciences, with teaching responsibilities in Veterinary Medicine and Pharmacy.

She serves various national and international originations, including the EFSA, working groups of the US-FDA and the WHO/FAO.
